

Prima Jatnika

Mobile Engineer

Hi everyone, my name is Prima Jatnika. I have experience as Software Developer especially as Fullstack Engineer and Mobile Engineer (iOS and Android) for more than 3 years in Banking application, MSME application and etc. with several projects such as Hasjrat, BNI, Bank Mestika. By using several languages including flutter, angular, kotlin, java and swift. Has experience as a mobile freelance using flutter for internal applications at EGP Security and KOPBI Indonesia. I'm used to using Git, postman, dbever to help with development needs.
